ADMINISTRATOR MESSAGE

Dear Parents and Guardians,

As we approach the end of November, I want to express my gratitude for your continued support and partnership. Our students have had an incredible month, engaging in various learning activities and extracurricular events.

I am proud of our students' achievements and the progress they have made so far this year. Our teachers and staff have worked tirelessly to provide a supportive and inclusive learning environment, and I am grateful for their dedication and expertise. As we move forward into the new year, I am excited to see our students continue to grow and thrive.

As we look ahead to December, we have several exciting events planned. Thank you for being an integral part of our school community. If you have any questions or concerns, please don't hesitate to reach out.

Best regards,

Rev Sr. R. REESAL
ADMINISTRATOR

PRINCIPAL MESSAGE

Warm Greetings to Everyone!

Even though the weather keeps changing on us and the leaves are falling with brilliant colors to decorate our school grounds the academic process here at the ST.MARY'S is staying constant. November is an important time for us all to reflect on the many blessings bestowed upon us. I hope you are enjoying fall so far and things are good with you and your family.

I am delighted to share with you the joy and excitement of our Children's Day celebration on November 14th. Our school was abuzz with enthusiasm as we honored our students, the future leaders of our nation.

Our school has been hard at work helping students learn and grow. Our aim is to help them be good citizens and productive in society. Our school expectations (rules) are designed to help them reach their potential by training them in habits and skills that will serve them for the rest of their lives. I'm grateful for your continued trust and partnership.

Ms. M. SELVI SAGAYA MARY
PRINCIPAL

CODING ASSESSMENT

In our school we are conducting coding classes for Grade I-V students , students have taken to computer lab to conduct assessment.

Benefits of coding classes:

- Coding helps with school & academic performance. ...
- Coding helps with maths & logical problem solving. ...
- Coding helps with writing skills & creativity. ...
- Coding helps with confidence. ...
- Coding is fun! ...
- Coding isn't just about computers.

KG KIDS PICNIC

Our kindergarten students had an absolute blast on their recent one-day picnic to Queensland! The excited youngsters were accompanied by their teachers and staff, who ensured their safety and well-being throughout the trip. The children enjoyed a fun-filled day of play, exploration, and discovery, creating unforgettable memories with their friends and teachers. The picnic was a wonderful opportunity for our KG students to experience the great outdoors, enjoy nature, and develop their social skills. We look forward to organizing more such exciting events for our students in the future!

EXTRA CURRICULAR ACTIVITIES

Extra curricular Activities(ECA) have been conducted every Thursday which enrich our students learning experiences and foster holistic development. It helps students to learn a new skill to manage stress and improve flexibility.

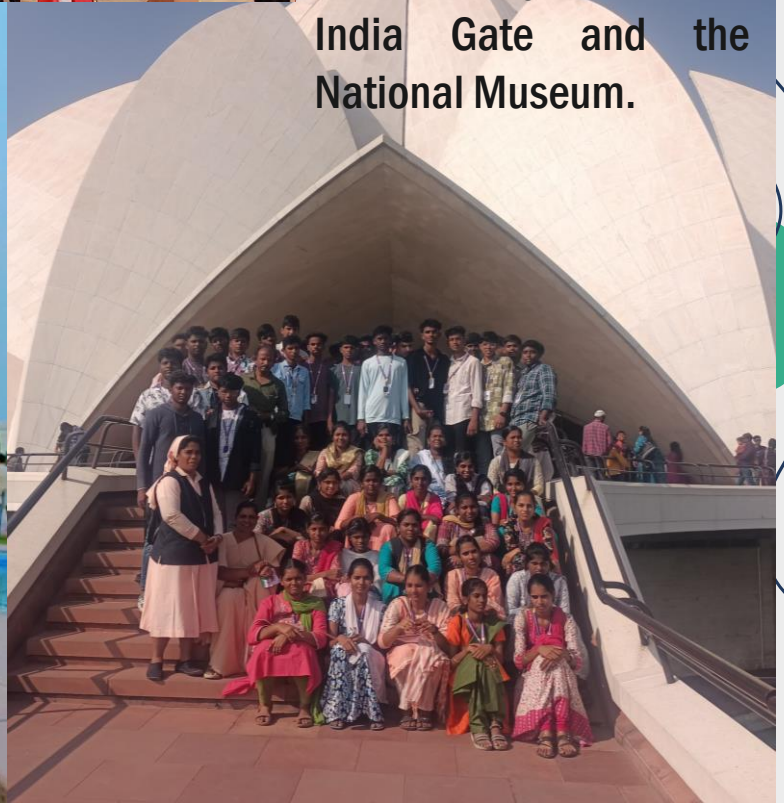

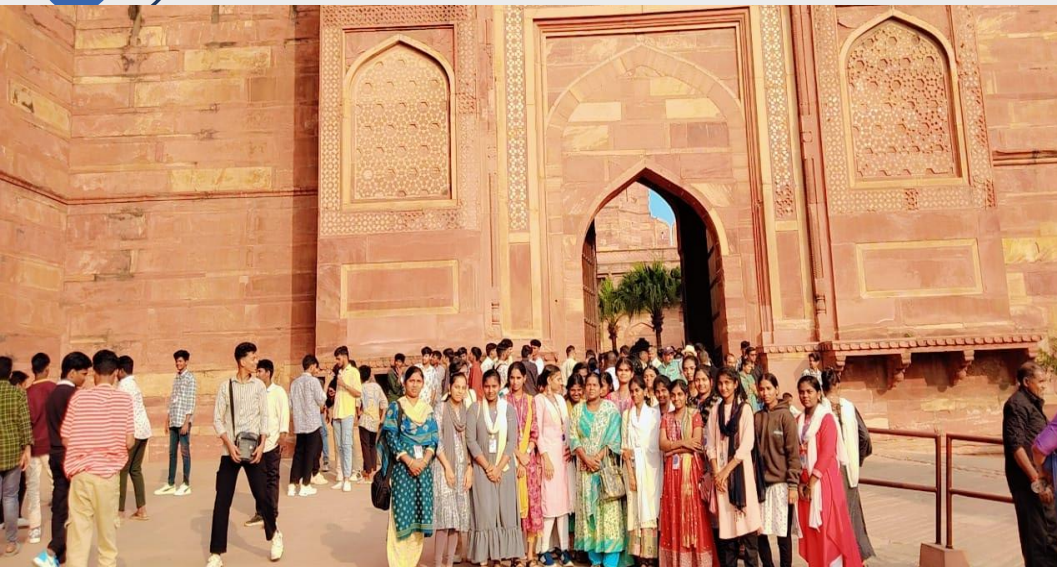

SAFETY DAY ★

School Safety day was observed on 7th NOVEMBER 2024. Principal checked Vehicles, Classroom, Rest room, RO Water Purifier and Electrical switches.

DELHI TOUR

Our senior students embarked on an exciting educational tour to Delhi and Agra, the capital city of India on 10.11.2024 to 15.11.2024. The 10th, 11th, and 12th standard students spent five days exploring the city's rich history, culture, and landmarks. The tour provided a unique opportunity for our students to learn beyond the classroom and gain valuable insights into India's heritage. During their visit, the students toured iconic sites such as the Red Fort, Qutub Minar, India Gate and the National Museum.

Karate and martial arts equip children with a sense of confidence and self-defense skills. It gives them the confidence needed to navigate through the world with confidence. In addition, the physical activities that are part of karate classes improves overall wellbeing, which helps children remain active and fit. From our school 14 students participated in national sports karate championship on November 10 at Montford indoor stadium, Mylapore. 2 students won first prizes. 2 students won second prizes,10 students won third prizes.

AWARD AND ACHIEVEMENTS

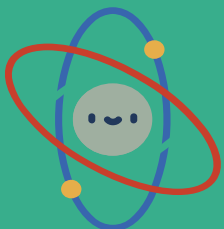

STATE LEVEL YOGA CHAMPIONSHIP

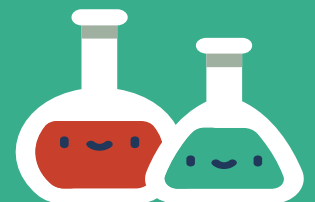

From our school 19 students participated in the State Level Yoga Championship organized by Sangamam Sports Academy at Thiruvallur on 24.11.2024. 3 students won first prize. 5 students won second prize. 11 students won third prize. The event provided a wonderful opportunity for our students to demonstrate their yoga skills, learn from others, and develop their confidence and teamwork. We are proud of our students' performance and commend them on their dedication to the practice of yoga.

Grade III-V students have taken to science labs during their science period. and they observed specimens from the Biology lab. In the chemistry lab the salts and equipment were explained by the science teachers. Students had a great experience from the science labs.

SCIENCE LAB

SECOND MID TERM TEST

Second Mid Term Test was conducted from 13.11.2024 to 18.11.2024. Students were coached by the teachers to write the exam well.

CHILDREN'S DAY CELEBRATION

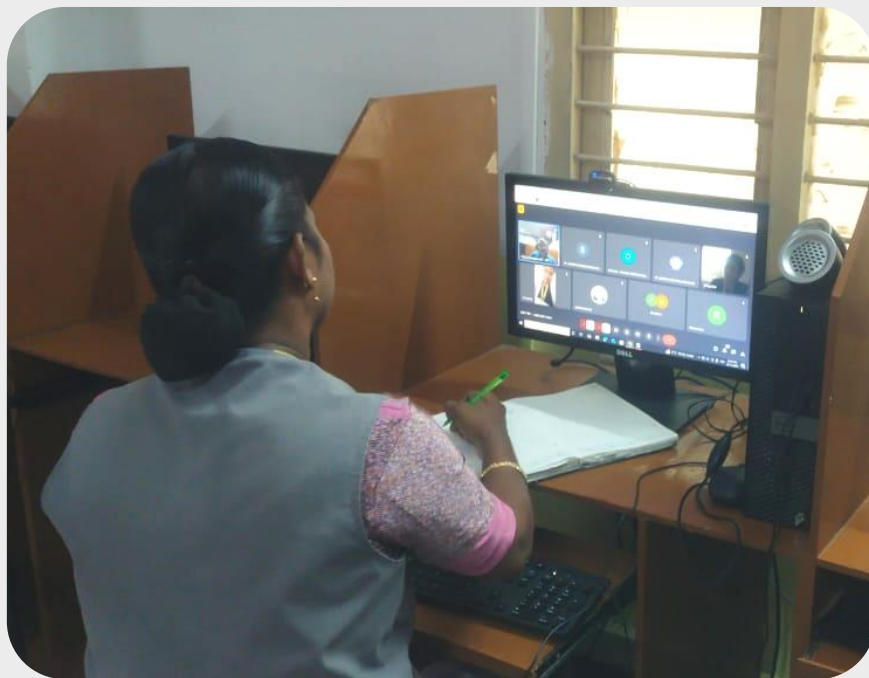

On 14th November Children's Day is celebrated in India to raise awareness about the rights, education, and welfare of children. It is celebrated every year on the birthday of the first prime minister of India Jawaharlal Nehru, who was known to have been fond of children. In our school we celebrated children's day in a grand manner . cultural programs were given by the teachers and conducted many events for the students to make them happy.

ONLINE MEETING

Principal attended training on 11.11.2024 on the topic” Leadership skills, Use of technology in teaching and learning process and 21st century skills.

Our primary Coordinator attended online meeting on 28.11.2024. Next academic year curriculum plan was discussed in the meeting.

ORIENTATION PROGRAM

On 16.11.2024 Rev sr. J. Suba sister gave orientation program for students from class VI to XII on the topic "Psychological and mental health". This session helped students to manage workload, time and to be aware of their distractions.

Principal presented orientation program for IXth std students on the topic How to overcome distractions. The session was lively and interactive students analyzed their sources of distractions and learnt to overcome them. This would help students to focus on their academic in a better way.

ORIENTATION PROGRAM

OUR HELPERS

Our LKG class conducted an engaging "Our Helpers" activity, introducing young learners to various community helpers. Students enthusiastically participated in a role-playing exercise, dressing up as doctors, teachers, police officers, and other essential workers. Through this interactive experience, children developed their social skills, empathy, and understanding of different professions.

PENCIL PEEL ACTIVITY

The Pencil Peel Activity was an engaging and interactive way to develop essential skills in UKG children. It fostered creativity, fine motor skills, and color recognition, while promoting self-expression and confidence.

- Children showed excitement and curiosity while peeling pencils.
- Developed fine motor skills through peeling and cutting.
- Demonstrated creativity in designing patterns and shapes.-
- Improved color recognition and matching skills.

ANIMAL MASK ACTIVITY

Our UKG class embarked on an exciting Animal Mask Activity, fostering creativity and self-expression. Students crafted colorful masks of their favorite animals, such as lions, monkeys, and butterflies, using construction paper, glue, scissors, and other art materials. Once complete, the children proudly wore their masks, role-playing and showcasing their creations. This engaging activity not only honed their artistic skills but also encouraged teamwork, confidence, and storytelling abilities, providing a delightful learning experience.

SCIENCE ACTIVITY'S

In order to improve the artistic skill of the students "Palm tree painting "activity is conducted for Grade II students. Coloring & drawing is a healthy way to relieve stress. It calms the brain and helps your body relax. This can improve sleep and fatigue while decreasing body aches, heart rate, respiration, and feelings of depression and anxiety.

PARTS OF LEAF

By the part of science activity Grade III students did parts of leaf activity . Different kinds of leaves were brought by the students and labeled the parts in the A4 sheet . by this activity students have learnt The most important job of a leaf is to make food for the plant. Leaves are the main (but not only) organ responsible for turning sunlight into food. Leaves have different sizes, shapes, and textures, depending on what is most useful in their habitat

CLAY POT ACTIVITY

Grade 4 students did clay pot activity in science subject, students prepared clay pots on their own . By this activity students learnt " clay pots add many important nutrients like calcium, phosphorous, iron, magnesium and sulfur to food, which are extremely beneficial to our body. Clay is also alkaline and thus, acts neutralized the acidity in the food, which makes it easier for us to digest".

PARTS OF FLOWER

Grade 5 Students participated an interactive activity to learn about the different parts of a flower. We began by observing and dissecting various flowers to identify their components. We discovered that a typical flower consists of petals, sepals, stamens, and pistils. We created diagrams labeling each part and discussed their functions. To reinforce our understanding, we created a flower model using paper and clay, highlighting the relationship between the different parts. This engaging activity helped us grasp the intricate structure and importance of flowers in plant reproduction.

WIND MILL ACTIVITY

Grade VI Students did windmill activity as part of our science curriculum. The objective was to design, build, and test a windmill that could generate electricity. This hands-on project helped us understand the principles of renewable energy, aerodynamics, and engineering.

MATHS ACTIVITY

Our Grade 4 students recently participated in an exciting math activity, designing and building weighing machines. This project allowed students to apply their understanding of measurement, weight, and balance in a hands-on and interactive way. We are proud of our students' hard work and enthusiasm, and we look forward to seeing their continued growth and interest in math.

MATHS ACTIVITY

Our talented Grade 6 students showcased their creativity and ingenuity by designing and building impressive clock models.

This project allowed students to apply their understanding of time, fractions, and geometry in a practical and creative way.

The clock model project was a huge success, with students showcasing their innovative designs and demonstrating a clear understanding of mathematical concepts.

TAMIL ACTIVITY

Our Grade 7 students recently participated in a creative Tamil language activity, where they drew and described natural scenes in Tamil. This activity aimed to enhance their language skills, while also encouraging them to appreciate and connect with nature. The students enthusiastically drew pictures of landscapes, mountains, rivers, and forests, showcasing their artistic talents.

TRAFFIC SIGNAL ACTIVITY

Our Grade 8 students recently participated in a unique English language learning activity, where they designed and created innovative traffic signal models. As part of this project, students had to research, script, and present their models, incorporating vocabulary and concepts related to transportation, safety, and community awareness. This activity helped students develop their communication, collaboration, and critical thinking skills.

QUIZ COMPETITION

Quiz competition was conducted on 16.11.2024 for the classes on current affairs. It is an exciting opportunity for our students to showcase their knowledge quick thinking and teamwork skills. It is also a great way to engage with peers and foster a spirit of friendly competition.

RTE VISIT

Government officials inspected on 08.11.2024 to check RTE admissions registers and to approve the amount against RTE.

TOPPERS MEETING

Principal conducted a special meeting for our top performing students. This gathering is designed to discuss about achievements and strategies for continuous success. This meeting is a great opportunity to connect with fellow high achievers and gain insights that can benefit our academic journey.

NO BAG DAY

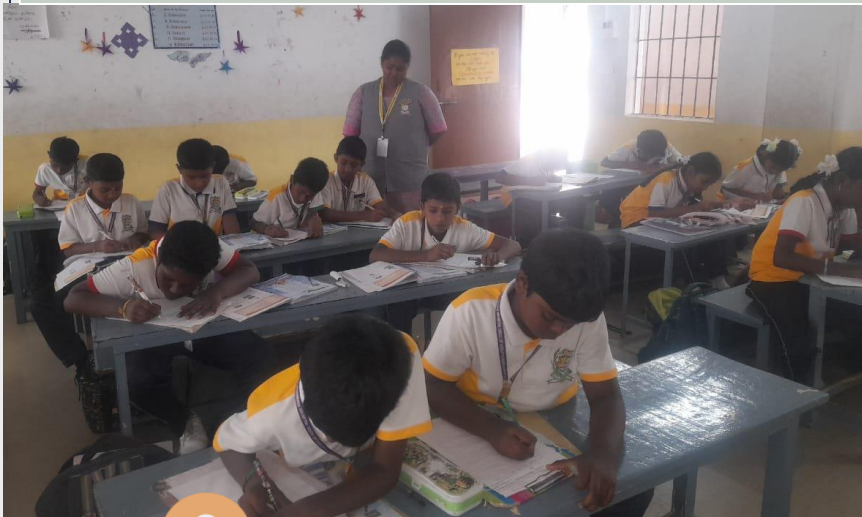

No bag day is a special day is all about breaking the routine, having fun, and giving everyone a chance to enjoy a lights more relaxed school day. 23.11.2024 Saturday was observed no bag day. Students participated in variety of fun , creative and collaborative learning experiences.

LISTENING SKILL ASSESSMENT

Every week we are conducting listening skill assessment to improve listening skill of the students.

HANDWRITING ASSESSMENT

Monthly handwriting assessment was conducted for Std I to VIII in which students would improve their handwriting.

READING ASSESSMENT

Our school recently conducted a comprehensive reading assessment for students from Grade 1 to VIII. This assessment aimed to evaluate students' reading skills, including fluency, comprehension, and vocabulary. The results will help our teachers identify areas of strength and weakness, enabling them to provide targeted support and instruction to enhance students' reading abilities.

STAFF MEETING

On November 23rd, a staff meeting was convened by our Principal, where important discussions took place regarding the upcoming Christmas celebration and Food Carnival. The meeting aimed to finalize the plans and preparations for these events, ensuring a joyous and memorable experience for our students, teachers, and parents. The staff actively participated in the discussions, sharing their ideas and suggestions to make these events a grand success.

NOVICE VISIT

Rev.sis.Sabinmmal made visit along with novice students in our school on 26.11.2024.
